

We are excited to host the upcoming event with USA Softball. USA Softball has their rules and policies and will be the Director and operator of this event. Your team has paid them to participate in their event - Please follow their rules but also please read and follow ours.

Adventure Sports & Entertainment is a community resource all-turf facility. We provide local programs and teams with many resources as well as rent our facility out for Major and Local events.

We are involved in many charitable efforts and need everyone's cooperation to have a great experience and to protect the park / preserve it for years to come. It is a major task to "manage" 2,000 visitors a day especially with volunteers and limited resources – we need your help!

Turf is expensive but also valuable – expect to continue to play through or around any other issue as long as safety is not a concern. We will post on our Facebook site any weather updates asap. We provide batting cages, observation decks, canopies for shade, multiple "house" tents for more shade, seating, a clubhouse restaurant, video streaming, free cornhole/games, covered dugouts, lights etc – we just want to keep it nice and continue to improve.

Adventure Sports reserves the right to expel and/or ban any visitors for violating our rules, please be part of making all events a great experience, be a great role model and enjoy your visit.

PARK RULES :

No seeds, gum or tobacco products. Seeds specifically harm the turf, and we will remove any player along with their coach due to the seriousness of this damage.

No metal cleats, no poles, or anything that can damage the turf. Please feel free to bring lawn chairs but keep them outside of the turf. We have some seating, bleachers, and picnic tables for your convenience.

No pets allowed – Too many complaints about children being afraid, and threatening lawsuits – sorry.

No outside food or Drink. Our coffee sales help support the Corvino Foundation and so **please do not bring coffee, or any fast food, Wawa,** etc. into the park. You are welcome to bring food from home for those that have allergies as well as water. Teams can bring in ONE team cooler. Visitors may bring in a small carry thermos/cooler but it is subject to search. No outside Alcohol.

No Littering. it's been a tremendously hard thing to patrol. We have 88 well placed garbage cans, in which are emptied throughout the day. We now have a bathroom cleaning company that cleans the bathroom continuously throughout the day. Please do not take this as you can just throw things on the floor, damage items or break/steal/ or deface anything including in the bathrooms. We really appreciate everyone's help with this since its been a big issue.

No Fighting /cursing or stalking anyone. It's for the children, it's for your family to build memories. Let's avoid a memory of being in a fight or acting poorly.

It's a great opportunity for all adults to act accordingly, to be a great role model for the children and to enjoy the day. We try to provide as many amenities as possible – let's enjoy them as well

as protect them. For weather and updates – check out our facebook page – Adventure Sports & Entertainment.
